

**Pii to Manufacture FDA-approved Busulfan Injection Drug Product**

**HUNT VALLEY, MD (March 15, 2019)** - Pharmaceuticals International, Inc. (Pii), a Contract Development and Manufacturing Organization (CDMO) headquartered in Hunt Valley, Maryland, is pleased to announce the launch of Busulfan Injection, 6mg/mL in 10mL vials, in partnership with Athenex Pharmaceuticals, Sungen Pharma and Chemwerth. Pii is responsible for all commercial production and Athenex will market and distribute the product in the U.S. Busulfan Injection is indicated for use in combination with cyclophosphamide as a conditioning regimen prior to allogeneic hematopoietic progenitor cell transplantation for chronic myelogenous leukemia.

“We are pleased to announce the licensing and launch of Busulfan Injection (FDA approved 9/21/2018) through our collaborative partnership. Pii’s **Pharmaceuticals Know-How™** allows us to not only work with our partners to develop and assist in expediting their own pipeline opportunities, but to also enter into strategic relationships that leverage valued synergies. Busulfan Injection is the 4<sup>th</sup> injectable product approved by the FDA, for Pii and its partners, during the past two years,” said Dr. Kurt Nielsen, Pii's President and CEO.
